

# HARMONY SCIENCE ACADEMY

11995 Forestgate Dr. Dallas, TX 75243 ♦ Tel: 972.234.9993 ♦ Fax: 469.341.9138

Dear Parent/Guardian,

**Harmony Science Academy Dallas is now accepting applications for grades K through 12<sup>th</sup> for the 2010-2011 academic year.** HSA Dallas is a member of the Harmony School System and celebrating its sixth year. Harmony Schools are tuition-free, college-preparatory, charter schools with an emphasis on science, mathematics, and computer technology. There are twenty-five campuses across the state.

Harmony Science Academy Dallas was rated **exemplary** by Texas Education Agency in 2009. HSA-Dallas is one of the few exemplary charter districts across the state of Texas. In 2009, only 9.5% of all public schools districts and 26% of all public campuses were rated as exemplary. In addition, due to the efforts of our hardworking students, dedicated staff members, and supportive parents, HSA-Dallas was able to become recognized as a **Distinguished Progress School** by the Division of No Child Left Behind Program Coordination at the Texas Education Agency.

Harmony Science Academy Dallas proudly offers Dual Credit courses for juniors and seniors. These free of charge college credit courses are offered in the last two years of high school. Students can earn a high school diploma with the potential to earn an Associate's Degree or two years of college credit towards a Bachelor's Degree in five years or less. The HSA Dual credit program saves time and money for students and parents. It also helps students improve their high school average higher since dual credit courses are more heavily weighted than regular high school courses.

Another unique college experience offered at Harmony is Advanced Placement, or AP, courses. Students can start taking AP classes as early as ninth grade. The most dedicated, inspiring, and highly qualified teachers are ready to prepare students for college education and show them that nothing is too difficult if you take responsibility and study hard enough. When they pass the AP exam, they earn college credit. Even if students cannot pass the AP exam at the end of the school year, they will still have a wonderful experience in AP courses.

If you want to learn more about our school and our educational programs, you may attend one of our open house sessions. All presentations will take place in the Harmony Science Academy Dallas elementary building.
